Affordable Dumpsters

Waste disposal is our business. Our 40 yard front end load trucks maximize our trips making us an inexpensive alternative to other providers.

WE ARE **AFFORDABLE**

One Simple Price

With Blue Jay, you know exactly what you are paying, every time because we charge one price, that's it:

- NO Fuel Surcharges
- NO Hidden Fees or Costs
- NO Extension Fees
- NO Cancellation Fees
- NO Dig Out Fees
- NO Container Delivery Charges

Referral Program

Ask your Blue Jay Sales Representative for Details!

We  Referrals!!!

No Hassle

Blue Jay Waste Disposal provides a hassle-free service to our customers. We offer regularly scheduled pickups to accommodate the needs of our clientele with a single point of contact.

Payments can be made online, with auto-pay, with credit card or by mail!

Flexible payment options!

Better Service

Service is our top priority. We want our customers to be satisfied every time which is why we take great effort in making sure your trash is picked up, without issues, at the regularly scheduled day – EVERY TIME

***“Blue Jay Waste Disposal was able to save me on my hotel’s dumpsters and provide me with one point of contact when I need to reach them.*”**

We are very happy we made the switch.”
— ***Avi Gajera, NSpire Hospitality***
(La Quinta & Best Western operator)

Valet and Door-to-Door

Blue Jay does valet and door-to-door pick up for multifamily units, apartment complexes, HOA’s and non-traditional waste services. This eliminates unsightly overfilled dumpsters and is provided as an additional amenity to tenants. Ask your Sales Representative for details.

Recycling

We encourage you to recycle whenever you can.

By recycling, we have an opportunity to reuse some of the items we throw away meaning less trash for the planet!

Environmentally Friendly

We are an environmentally sound company who believes the Earth is too precious of a gift to lose. We use every effort to conserve and mitigate waste as well as planting trees. Through this practice, we have saved thousands of gallons of water, used tons of less waste and planted many trees to help clean the air. We invite you to challenge our efforts in protecting our environment!
